

# *Bristol* **AERO TALKS**

## Operating at Range

**Paul Shepherd**, a retired RAF navigator, will give a talk based on his involvement in the 1982 Falklands conflict. He will consider the operational and logistic impact of deploying a large-scale force at extreme range with minimal third-party support.

He will also examine the Vulcan Black Buck sorties; the longest-range bombing operations achieved at that time.

**7:15 pm on Tuesday October 13<sup>th</sup> 2026**
